

# The State of Health: You'll Have to be Different

- “U.S. *Dead Last*” – Reuters, Washington 1/8/08
- “U.S. – Health Care System Gets an ‘F’ - Has Highest Death Rate, Before 2 and Last at 60” – Commonwealth Study
- “U.S. Last for Years of Potential Life Lost” – JAMA, Starfield, '00
- U.S. 2nd Last in Healthy Longevity
- “U.S. Most Depressed Country in the World” - Wall St. Journal March 9, 2007
- U.S. World Leader in Adult and Childhood obesity

*"Whenever you find yourself on the side of the majority,  
it's time to pause and reflect."*

*- Mark Twain*

# What Is Your Number

- (BMI > 30)\* have a 50 to 100% increased risk of premature death from all causes, compared to those with a healthy weight.
- For every 2-pound increase in weight, the risk of developing arthritis is increased by 9 to 13%.
- If your BMI is over 30, your risk of heart disease is increased by 300%, colon cancer 200% and gall bladder disease by 400%.
- Your risk of diabetes is 3 times higher if your BMI is over 25, 10 times higher if over 35!
- If your number is over 25, your risk of heart disease, diabetes, arthritis, gall bladder disease, depression and sleep apnea goes up dramatically.

4

## CAUSE AND EFFECT

### **15 lb. Weight Gain**

**Doubles** your risk of Type 2  
Diabetes

### **22 lb. Weight Gain**

Increases Heart Attack Risk by 75%

### **Obesity**

**Doubles** your risk of Heart Failure

**Triples** risk of Breast Cancer in  
women

Statistics quoted from Bradley et. al. The Okinawa Diet Plan. 2004.

# The Plan

- Monthly classes to target high risk/cost conditions such as diabetes, cancer, heart disease and hypertension
- Develop programs to change the “Health Culture” of the Diocese of San Jose
- Identify high risk groups/individuals and address their individual needs

# God sent a clear message to His people:

“I have set before you life and death,  
blessings and curses. Now choose life so  
that you and your children may  
live” (Deuteronomy 30:19).
